

## **Grower's Agreement**

1. The seeds shall not be sold to a third party under any circumstance.
2. For the time being, do not give any seeds to other people. Once we have the stock of seeds built up, this policy will change. Currently, the seeds are simply too rare to be given out without proper oversight and administration.
3. We do want to encourage people to keep seeds for their own future use and to eat a part of the harvest, but we want to get back 50% of the total seeds from the harvest. We understand that due to weather, insects, animals etc. there is a possibility of crop failure and in those cases we would not expect any seed return. However, we are hopeful there will be a crop and we expect seed back.
4. We are able to provide a \$500 stipend to growers, and any seeds above the 50% threshold, we will pay \$25 per lb for corn seed and \$80 per lb for pumpkin seed.
5. Please provide a monthly update on how the crop or crops are doing. It does not need to be detailed. As always, pictures are great.
6. If you have any questions or need any help, feel free to contact [extension@cmn.edu](mailto:extension@cmn.edu) or [ksanmann@cmn.edu](mailto:ksanmann@cmn.edu).
